

Dassault Aviation Appoints Charles Wemaëre Vice President, Worldwide Spares

(Saint-Cloud, France, January 3, 2020) – Dassault Aviation has appointed Charles Wemaëre Vice President, Worldwide Spares, with responsibility for spare parts strategy and logistics efforts for the global Falcon fleet.

He will report to Pierre Thielin, VP, Worldwide Customer Service, within Dassault's Civil Aviation Department. Wemaëre previously served as Deputy Manager to Serge Elias, the former VP Worldwide Spares, who is retiring.

"Perfecting spares distribution is a central element in our quest to ensure a uniform standard of excellence in worldwide customer support, and was critical in our recent recognition by *Aviation International News* and *Professional Pilot* as the industry's top service provider," said Jean Kayanakis, Senior Vice President, Worldwide Falcon Customer Service & Service Center Network. "I am confident that Charles' dynamic approach, attention to detail and proficiency in dealing with challenging tasks will enable us to continue to improve and remain number one in this essential activity."

Following an extensive career in the automotive industry, Wemaëre joined Dassault Aviation in 2011 as a Sales Director responsible for spare parts in Europe, the Middle East, Africa and Asia. In this capacity, he was instrumental in moves to regroup all Falcon spares resources in a new facility in Bordeaux-Mérignac, and to build a vast state-of-the-art distribution center in Tremblay, near Paris Charles de Gaulle Airport, to enhance spare parts delivery and efficiency throughout the Dassault Aviation worldwide network.

The Falcon Spares group represents a vibrant network of 250 dedicated professional experts around the globe. It includes 16 facilities with an inventory of more than \$900 million (US) in parts.

Wemaëre holds an engineering degree from the Institut Polytechnique de Grenoble. His passions include cabinet making and apiculture.

ABOUT DASSAULT AVIATION

Dassault Aviation is a leading aerospace company with a presence in over 90 countries across six continents. Dassault designs and builds the family of Falcon business jets as well as the Rafale fighter jet. The company employs a workforce of over 12,000 and has production facilities in both France and the United States, and a worldwide service network. Since the rollout of the first Falcon 20 in 1963, over 2,650 Falcons have been delivered. The tri-jet and twin-engine lines offer outstanding efficiency and comfort, with ranges from 3,500 nm to 7,500 nm. They include the flagship Falcon 10X, the pioneering Falcon 7X and 8X, the widebody Falcon 6X, and the versatile Falcon 900LX, 2000LXS. Falcon Customer Service continues to hold the top spot in key business aviation surveys.

ABOUT DASSAULT FALCON JET

Dassault Falcon Jet Corp., is a wholly owned U.S. subsidiary of Dassault Aviation, France. Dassault Falcon Jet markets and supports the Falcon family of business jets throughout North America and South America.
