

Dassault Announces 2018 Falcon Regional M&O Seminar Schedule

February 9, 2018 (Saint-Cloud, France): Dassault's 2018 Falcon Maintenance & Operations (M&O) Seminars will kick off April 4 simultaneously in Paris, France and Denver, Colorado.

The seminars will travel to eight cities across North and South America, Europe and Asia and will conclude in Chicago, Illinois, on May 17.

Last year, Dassault welcomed more than 1,700 attendees to the worldwide M&O seminar series, where Falcon customers had multiple opportunities to hear from company and partner specialists, explore a wide range of technical and flight ops topics and interact with top aviation industry vendors.

"Each spring, M&Os around the world provide us with crucial insights that allow us to continuously improve the Falcon customer experience," said Jacques Chauvet, SVP, Worldwide Customer Service. "Meeting our customers face to face and exchanging ideas and information at these seminars is immensely valuable for our customers, our partners and our company."

As in previous editions, this year's M&O Series will provide in-depth information on Dassault's latest products and services, including new performance software and app solutions, as well as the popular Falcon Response portfolio of AOG support services.

Model-specific and general technical sessions will be interactive, covering topics ranging from troubleshooting to reliability improvements and STC updates. Dedicated pilot sessions led by the Falcon Pilot Support Team will keep flight crews abreast of the latest developments in flight operations.

With over 1,200 customers in 90 countries operating more than 2,100 Falcon aircraft of many different types, customer needs vary widely. Great lengths are taken to ensure that seminar content is relevant to each Falcon operator. Every year the company solicits feedback from its Operator Advisory Board and surveys operators around the world for suggestions on topics they would like to see addressed.

2018 Falcon M&O Seminar Dates and Locations:

- April 4-5: Paris, France
- April 4: Denver, Colorado
- April 17: West Palm Beach, Florida
- April 18: Shanghai, China
- April 26: Dallas, Texas
- May 9: Sao Paulo, Brazil
- May 15: Mahwah, New Jersey
- May 17: Chicago, Illinois

Notes for Editors

About Dassault Aviation

Dassault Aviation is a leading aerospace company with a presence in over 90 countries across five continents. It produces the Rafale fighter jet as well as the complete line of Falcons. The company employs a workforce of over 11,000 and has assembly and production plants in both France and the United States and service facilities around the globe. Since the rollout of the first Falcon 20 in 1963, over 2,500 Falcon jets have been delivered. Dassault offers a range of five business jets from the twin-engine 3,350 nm large-cabin Falcon 2000S to its new flagship, the tri-engine 6,450 nm ultra-long range Falcon 8X.

About Dassault Falcon Jet

Dassault Falcon Jet Corp. is a wholly owned U.S. subsidiary of Dassault Aviation, France. Dassault Falcon Jet markets and supports the Falcon family of business jets throughout North and South America.
